REPORT

REPORT

4 Days In-house Faculty Development Programme was organized & conducted by Internal Quality Assurance Cell of Vivekanandha College of Engineering for Women (Autonomous) from 23rd to 26th September 2024 for the 12 identified faculty members.

The programme was conducted by Dr.Sanjay Singh, External Trainer on the following topics.

Day 1 was handled in the Topic “Effective Communication” on 23.09.2024.

Day 2 was handled in the Topic “Classroom Management” on 24.09.2024.

Day 3 was handled in the Topic “Outcome Based Learning and Choice Based Credit System” on 25.09.2024.

Day 4 was handled in the Topic “Teaching, Learning & Assessment and Strategic Planning & Management” on 26.09.2024.

The Faculty Members gave their feedback about the programme and thus the programme ended successfully.

APPROVAL LETTER

VIVEKANANDHA COLLEGE OF ENGINEERING FOR WOMEN
(Autonomous)
Tiruchengode, Namakkal – 637205.

Date: 19.09.2024

Submitted to the Principal for kind approval:

Internal Quality Assurance Cell (IQAC) is organizing a 4 Days In-house Faculty Development Programme for the 12 identified faculty members from 23.09.2024 to 26.09.2024 in IQAC Board Room. In this regard, we request you to grant necessary approval.

The details of faculty members are attached for your kind reference.

Director IQAC

Remarks

PRINCIPAL

PRESENTATION DETAILS

DAY 1

“EFFECTIVE COMMUNICATION”

by

Dr.SANJAY SINGH

External Trainer

**Faculty Development
Program on
"Effective
Communication"
23rd Sep 2024**

Dr. Sanjay Singh

SINCERE THANKS

1. Chairman, Vivekanandha Group of Educational Institutions, Tiruchengode.
2. Prof. Kuppuswamy, Executive Director, Vivekanandha Group of Educational Institutions, Tiruchengode.
3. Dr. Vijay Kumar, Principal, Vivekanadha College of Engineering for Women, Tiruchengode.
4. All Participants – Faculties of Vivekanandha Group of Educational Institutions, Tiruchengode.

Types of Development?

Ideally a faculty needs the following 04 types of development.

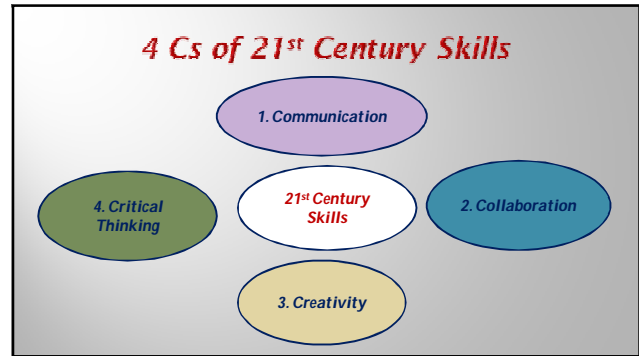

- (a) Personal (Interpersonal Skills, Career Development and Life Planning)
- (b) Instructional (Course Design and Development, Instructional Technology)
- (c) Organizational (Ways to improve the institutional environment and better teaching support)
- (d) Professional (Ways to support faculty members to fulfil their multiple roles in teaching, research and service)

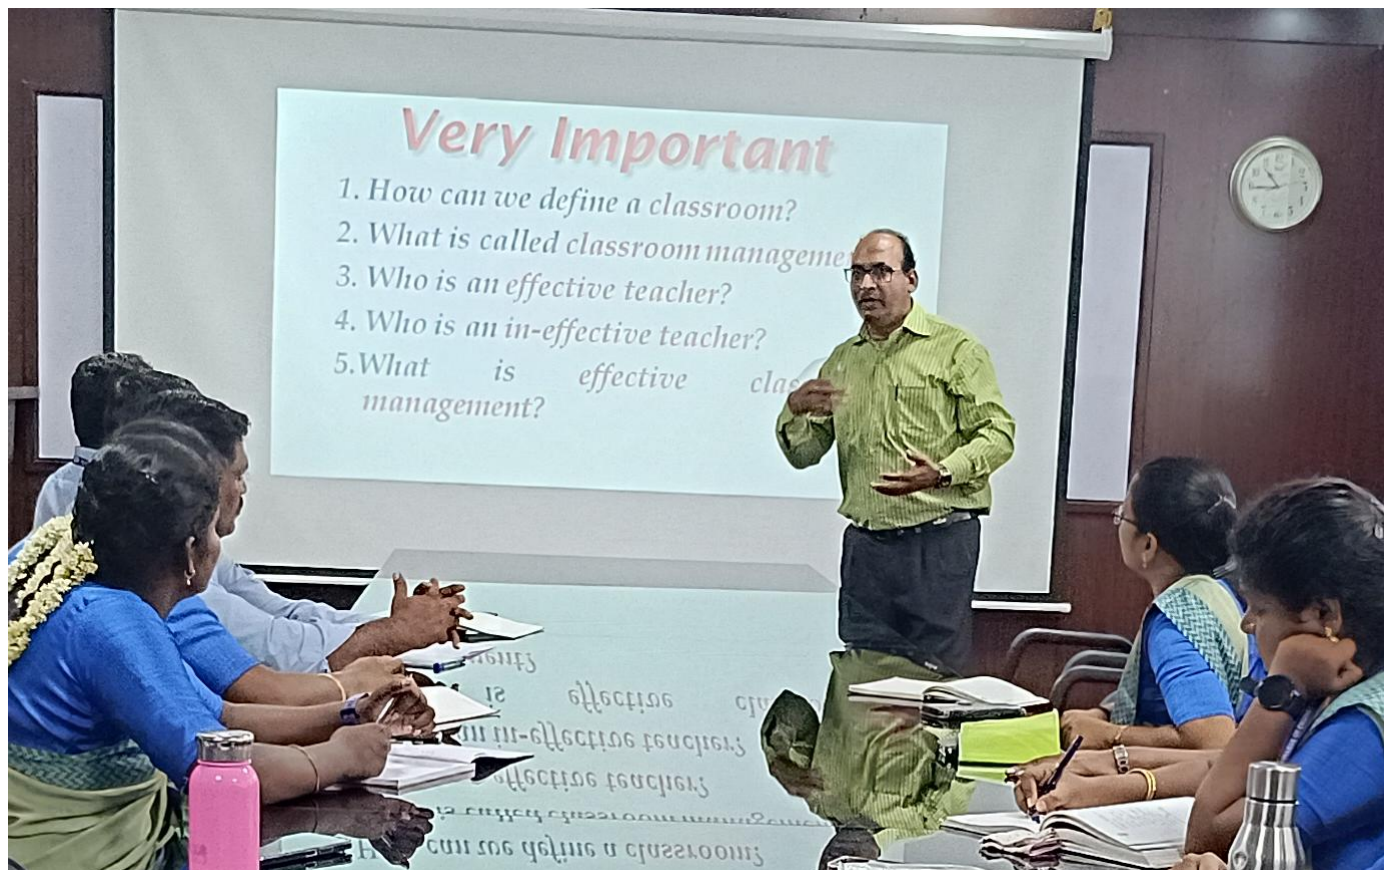

What is Communication?

1. Communication is a process of interaction of ideas between the communicator and the receiver to arrive at a common understanding for mutual benefit (Berlo, 1960).
2. A process of transmitting information and common understanding from one person to another (Keyton, 2011).
3. It is a process of generating meaning by sending and receiving verbal and non-verbal symbols and signs.
4. Communication is a two way interactive process of communicating to others.

Day 2

“CLASSROOM MANAGEMENT”

by

Dr.SANJAY SINGH
External Trainer

Faculty Development Program on "Classroom Management"
24th Sep 2024 *Dr. Sanjay Singh*

What is classroom management?

1. All activities that a teacher performs to organize **students, space, time and materials** so that instruction in content and most important **student learning** can take place.
2. Two major objectives
 - (a) To enhance student involvement and cooperation in all classroom activities
 - (b) To create a productive working environment.

Classroom management

Strategies for **planning, organizing, and structuring** our classrooms to **maximize student success.**

Effective Teachers

Effective teachers **MANAGE** their classrooms

Ineffective teachers **DISCIPLINE** their classrooms.

EFFECTIVE TEACHERS ARE READY

1. **They have the classroom ready!**
(positive work environment that is work-oriented)
2. **They have the work ready!**
(desks, books, papers, assignments, and materials)
3. **They have themselves ready!**
(warm, positive attitude, and positive expectations) – **Most Important**

EFFECTIVE TEACHERS

1. **Designs lessons for student mastery.**
2. **Works cooperatively and learns from colleagues.**
3. **Seeks out a mentor who serves as a role model.**
4. **Goes to professional meetings to learn.**
5. **Has a goal of striving for excellence.**
6. **Understands the research process.**
7. **Teaches with proven research-based practices**

PREPARING FOR THE FIRST DAY

1. **Arrange and Decorate.**
Organize files, documents, desks, tables.
2. **Imagine as you are getting ready for inspection by regulatory bodies.**
3. **Ensure there is a place for everything.**
4. **Readiness can be taught by modelling readiness**
5. **Equip yourself everyday with a First Day Script.**

READINESS IS THE PRIMEMOST REQUIREMENT OF TEACHER EFFECTIVENESS

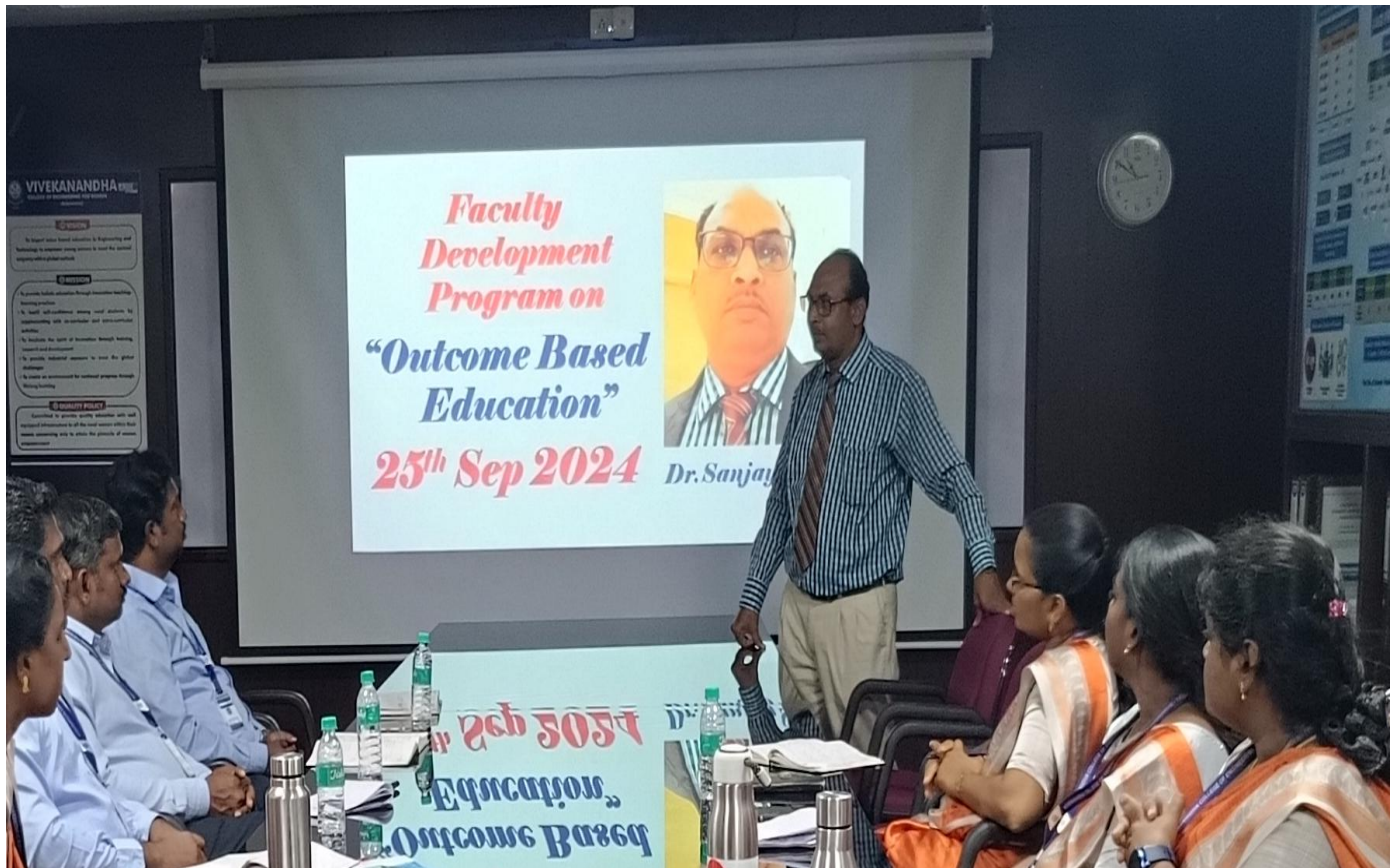

Conclusion

In a well-managed classroom:

1. **There exists a set of procedures and routines that structure the classroom.**
2. **Students are engaged in learning.**
3. **Students know what is expected of them.**
4. **There is relatively little wasted time, confusion or disruption.**
5. **The climate of the classroom is work-oriented, relaxed, pleasant, and welcoming.**
6. **Teachers and their students are successful.**

Day 3

“OUTCOME BASED LEARNING & CHOICE BASED CREDIT SYSTEM”

by

Dr.SANJAY SINGH
External Trainer

Faculty Development Program on "Outcome Based Education"
25th Sep 2024

Dr. Sanjay Singh

Washington Accord

1. Originally signed in 1989.
2. Multi-lateral agreement between bodies responsible for accreditation.
3. To assist the mobility of professional engineers.
4. For development and recognition of good practice in engineering education.
5. To assist growing globalization of mutual recognition of engineering qualifications.
6. Focused on academic programmes which deal with the practice of engineering at the professional level.

Washington Accord

1. Accreditation of engineering academic programmes is a key foundation for the practice of engineering at the professional level in each of the countries.
2. The accord outlines the mutual recognition, between the participating bodies, of accredited engineering degree programmes.
3. It also establishes and benchmarks the standard for professional engineering education.
4. Currently there are twenty signatories.
5. India signed the accord on 13th June 2014 with the permanent signatory status of the National Board of Accreditation (NBA).
6. This is considered as a significant step of progress for the higher-education sector in India.

Educational Models

Educational Models

<p>Mastery Education</p> <p>Acquisition of cognitive, affective and psychomotor skills under appropriate conditions.</p>
<p>Competency Based Education</p> <p>Acquisition of a group of skills that bring about competence in specific field, which is assessed against pre-set benchmarks mostly defined by industry</p>
<p>Outcomes-Based Education</p> <p>Demonstration of acquired generic skills in different contexts, that are assessed against pre-set criteria agreed upon by all stakeholders</p>

Defining Outcomes

Defining outcomes

Programme Specific Outcomes	Competent health care professionals who are leaders in.....	After some years
Programme Learning Outcomes	Will be able to demonstrate critical thinking skills to	When completing Program
Course Learning Outcomes	Will be able to design a management protocol	When completing Course
Specific Learning Outcomes	Will be able to demonstrate BP measurement in a model accurately	When completing a module/ Topic

Program Outcomes

Engineering Graduates will be able to:

1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

2. **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

3. **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

Program Outcomes

Engineering Graduates will be able to:

4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

Program Outcomes

Engineering Graduates will be able to:

7. **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

Program Outcomes

Engineering Graduates will be able to:

10. Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

11. Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

12. Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

PO – CO Mapping

	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12
CO1												
CO2												
CO3												
CO4												
CO5												
	3 - Strong 2 - Medium 1 - Low											

Bloom's Taxonomy for Assessment Design

- Benjamin Bloom, an educationist in 1956 developed the taxonomy.
- A carefully defined framework into which items measuring the same objective could be classified.
- Result was a framework with 03 levels of learning.
- Bloom's Taxonomy provides an important framework to not only design curriculum and teaching methodologies but also to design appropriate examination questions belonging to various cognitive levels.

Levels of Learning in Cognitive Domain

Conclusion

1. Outcome Based Education (OBE) – Important in engineering education.
2. 03 Levels of Learning – Cognitive, Affective, Psychomotor as per Bloom's Taxonomy.
3. Bloom's Pyramid with 06 levels of cognitive learning.
4. PO – CO Mapping and its significance in curriculum design and assessment of attainment of outcomes by the students.
5. Action Verbs used in various levels of Learning
6. Assessment of Professional and Higher Order Skills.

Day 4

“TEACHING, LEARNING & ASSESSMENT & STRATEGIC PLANNING & MANAGEMENT”

by

Dr.SANJAY SINGH
External Trainer

Faculty Development Program on

"Teaching Learning & Evaluation"

26th Sep 2024

Dr. Sanjay Singh

Pedagogy

- How knowledge and skills are imparted in an educational context.
- All kinds of theory and practical ways of learning.
- Approach to effective teaching.
- Paves path for the social, political and Psychological Development of learners.

Pedagogical Considerations

- Curriculum in place.
- Learning space – Classroom, Lab, site or location etc.
- Learning theories – How knowledge is absorbed, processed and retained.
- Teaching resource adaptation / utilization.

Teaching Styles

5 COMMON TEACHING STYLES

Authority, or lecture style <small>Teacher-centered, frequent lengthy lectures, one-way presentations.</small>	Demonstrator, or coach style <small>Shows knowledge, includes activities and demonstrations.</small>	Facilitator, or activity style <small>Promote self-learning, self-actualization, and critical thinking skills.</small>
Delegator, or group style <small>Best for lab activities and peer feedback activities.</small>	Hybrid, or blended style <small>Blends the teacher's personality and interests with students' needs.</small>	

Assessment

- Assessment recognizes the diversity of learners inside the classroom, the need for multiple ways of measuring their varying abilities and learning potentials.
- The role of learners as co-participants in the assessment process.

Importance of Assessment

- Assessment defines for the student:
 - What is important?
 - What does it count?
 - How will they spend their time or will tackle the situation?
 - How will they see themselves as learners?

Principles of Assessment

- Principle 1: Assessment should be well aligned with students' objectives, competencies, and educational standards.

Principles of Assessment

- Principle 2: The formative assessment needs to scaffold students in the summative assessment.

Great Teachers

- Treat students with respect and a caring attitude
- Present themselves in class as "real people"
- Spend more time working with small groups throughout the day
- Provide a variety of opportunities for students /pupils to apply & use knowledge & skills in different learning situations
 - Use active, hand-on student learning
- Vary instructional practices and modes of teaching
 - Offer real world, practical examples

Conclusion

1. Pedagogy is the combination of teaching methods, learning methods and assessment.
2. Pedgogical Approaches - Critical Pedagogy, Dialogic Learning, Student Centered Learning.
3. Learning Approach - Teacher Centered, Learner Centered, High Tech and Low Tech Approach.
4. Ways of Learning - Direct instructions, Flipped Classrooms, Kinesthetic and Blended.
5. Teaching Styles - Authority or Lecture, Demonstrator or Coach, Facilitator or Activity, Delegator or Group & Hybrid or Blended.
6. Importance of Assessment.
7. Principles of Assessment.
8. Traits of a great teacher.

Any questions?

Thank you.
